

Donate to Our Mission

General support for the National Science and Technology Medals Foundation helps us achieve our core objectives: deliver programming that reduces the attrition rate among students, particularly those in underrepresented groups, who enter college intending to major in STEM subjects but leave STEM before they graduate; honor those doing excellent work in STEM by involving them in building more inclusive and equitable STEM communities; and build public appreciation for the role of science and technology in our lives as well as the importance of diversity and inclusion in innovation.

Your investment entitles you to membership benefits for one year following the date of your donation. As donations increase, benefits accrue, i.e. top-tier donors are eligible for all benefits unique to their level as well as those benefits offered to supporters at donation tiers below them.

The NSTMF also encourages event sponsorships and program-restricted giving. If you are interested in sponsoring a particular event or supporting a specific NSTMF initiative, please contact Kate Biddle, Senior Development Associate, for more information (kate@nationalmedals.org | 202.556.0258).

PATHFINDER

\$50,000+
